To NABERS Assessors

## How to complete the Gymsnasiums tab in NABERS Rate?

A system glitch has been identified in the current release of NABERS Rate that prevents completion of the Gymsnasiums tab when entering the data for a shopping centre rating. This issue is being investigated and will be fixed shortly. Meanwhile a workaround is available.

This Guide outlines the steps to follow when entering data for this workaround.

Please note this issue may only occur when all the following conditions are true:

- The total GLAR is larger than 15,000 m<sup>2</sup>; and
- There is a water rating; and
- There is a gymnasium

### Steps
